Modern Application Architectures

The Bokker

- # I can see a list of books (with ratings)
- # I can add/modify the book
- # I can see a list sorted by ratings, book name
- # I can rate the book
- # I can see details about the book (with detailed information about rating)
- # I can see history of rating changes (of changes)
- # I can borrow the book
- # I can see all borrowed books sorted by due date
- # I can filter the books list: all, borrowed, available, to be returned
